

## Skills to practise at home with your child

\*Writing their name independently.

\* Reading books together that have rhyming words in. The author Julia Donaldson is very good for this.

\* Begin to write some letters in the alphabet.

\*Recognising numbers 0-10 (when they can do this try numbers to 20).

\*Ordering numbers 1-10.

\*Counting out objects to 10. How many spoons in the drawer? How many socks? How many pencils etc.

\*Tall and short- are you taller than your favourite toy? Taller or shorter than the door? Taller or shorter than your bed etc.

\*Board games- turn taking and sharing.

\*Looking for shapes in the home. Can you see a rectangle anywhere? Can you find a triangle?
