## Number Fun

Use your number line, number cards and counters to do the following number activities.

Put your number cards in order. Start at 0 and go up to 20.

Choose a number from your number cards. Count out that many using your counters.

Clap your hands that many times.

Do that many jumps.

Choose a number from your number cards. Count out that many using your counters.

Find 1 less by taking 1 away. Now count them again. What is 1 less than your number? Can you say...

"1 less than \_\_\_\_\_ is \_\_\_\_\_"

Ask someone to say a number between 0 and 20. Put your finger on that number on your number line. Find 1 more than that number using your number line. Find 1 less than that number using your number line. Which way along the number line will you go if it's more? Which way will you go if it's less?

Put your number cards in order starting at 20, and counting backwards to 0.

Choose a number from your number cards. Count out that many using your counters.

Add 1 more. Now count them again. What is 1 more than your number? Can you say...

"1 more than \_\_\_\_\_ is \_\_\_\_\_"

Put your finger on 0 on your number line. Count all the way up to 20. Move your finger along the number line as you count.

Put your finger on 20. Count backwards all the way back to 0. Move your finger along the number line as you count.
